Extractor™ Pro

XL Retrieval Balloons

The Extractor Pro XL Retrieval Balloons have been redesigned to offer long-wire users additional device options and a stiffer catheter for improved “pushability”.

Enhanced Balloon Design

- New and improved balloon is designed to improve strength and reliability.
- Each of the three balloon sizes can be inflated to two distinct diameters: 9–12mm; 12–15mm; 15–18mm to better accommodate anatomical variations and help obviate the need to use an additional balloon and change catheters if an alternative balloon diameter is required.
- “Squared shoulder” balloon is designed to facilitate stone removal.

Improved Catheter Design

- Catheter is designed to be easily back loaded over a guidewire.
- XL catheter enables front or back loading of guidewire and offers injection-above or injection-below options to support physician preference and facilitate procedural needs.
- Designed for greater injection flow rate.

Ordering Information

Extractor Pro XL Triple-lumen Retrieval Balloon

Order Number	Balloon O.D. (mm)	Injection	Catheter O.D. (F/mm)
M005 47100	9–12	Above	7–6 / 2.33–2
M005 47110	12–15	Above	7–6 / 2.33–2
M005 47120	15–18	Above	7–6 / 2.33–2
M005 47130	9–12	Below	7–6 / 2.33–2
M005 47140	12–15	Below	7–6 / 2.33–2
M005 47150	15–18	Below	7–6 / 2.33–2

Packaged one per box

Recommended guidewire: .035”.
